

# Book

A **Book** lets you place large amounts of text and images into a course, in a way that does not disrupt the course layout.

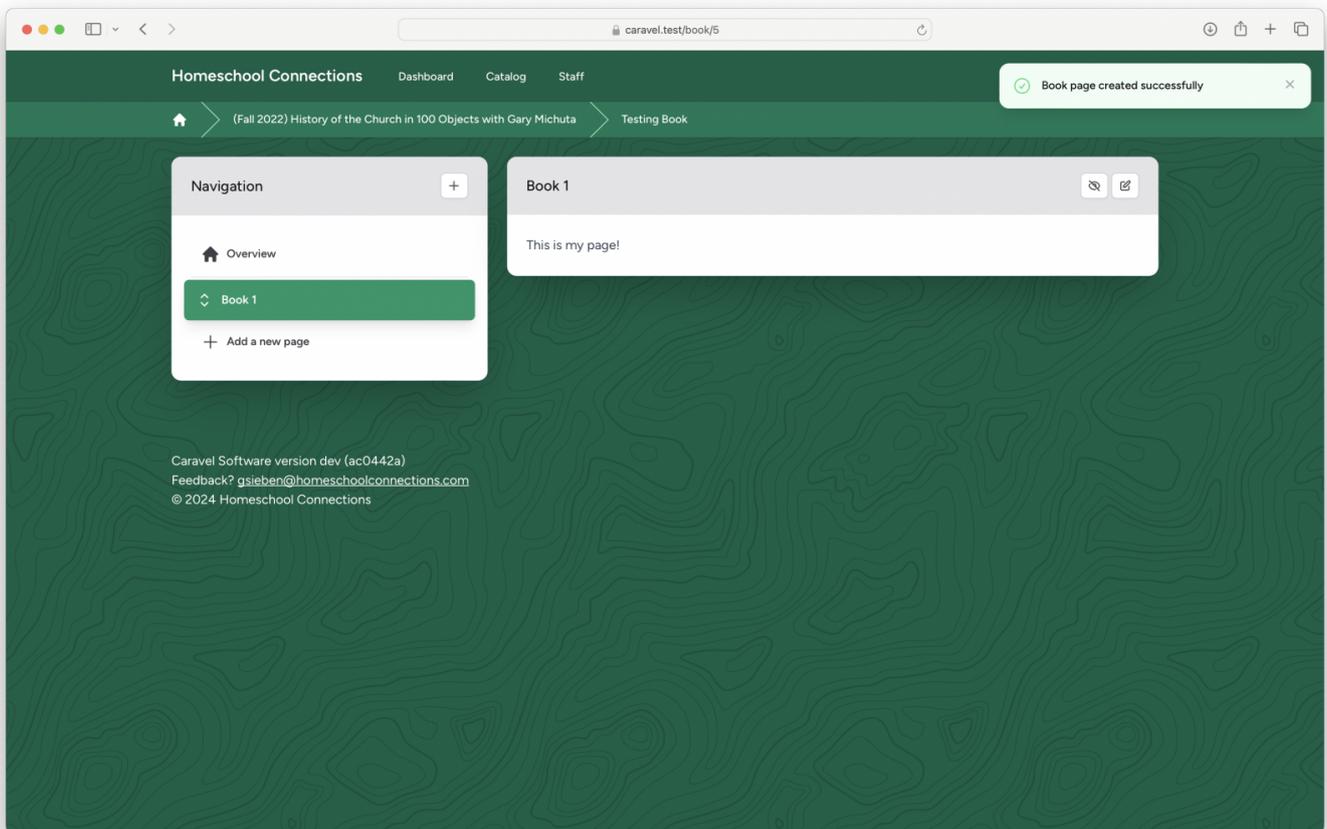

After creating a book (which has fields that are common to all elements) and opening it, you will see an experience like this:

On the **Overview tab**, is the same summary visible on the course page. If you click **Add a new page**, you can add pages to your book.

These pages will then be displayed in the navigation area, and can be re-organized.

Revision #2
