

# Duplicate Here

**Duplicate Here** is the only block that isn't actually a block. This is just a quick way to copy another block to this section:

The screenshot shows the 'Duplicate element to section' form in the Homeschool Connections app. The form is titled 'Duplicate element to section' and is located within a breadcrumb trail: '(Fall 2022) History of the Church in 100 Objects with Gary Michuta > Duplicate element to section'. The form has two main sections: 'Section\*' and 'Section Element\*'. The 'Section\*' dropdown is currently set to 'Class 1'. The 'Section Element\*' dropdown is open, showing a list of options: 'Select an option', 'Gabriel's Room (Zoom meeting)', 'Class 1 Recording (Link / URL)', 'Page 1 (Page)', 'See Below How to Open Up Your Zoom Recording for T (Text block)', 'Quiz for Class #1 (Quiz)', 'Participation for this week (Manual grade)', '101 Objects Class 1 (Class Version) (File download)', and 'Assignment 1 (Assignment)'. The 'Quiz for Class #1 (Quiz)' option is highlighted in blue. At the bottom right of the form, there are two buttons: 'Back' and 'Save'.
